Successful SIP students:
• Are highly motivated
• Are interested in science research
• Are organized
• Are able to work both independently and in groups
• Are problem solvers
• Have taken challenging math and science classes in high school
• Have excellent teacher references

SIP alumni have:
• Developed important working relationships with mentors
• Worked collaboratively with other researchers
• Sharpened critical thinking skills
• Attended professional conferences
• Submitted articles to scientific journals
• Submitted papers to science competitions

“Great professors, professional projects addressing professional questions that have ACTUAL impacts in the world; we’re not just doing experiments, this is REAL RESEARCH.”
—2014 SIP Intern
